Alissia Wei

GLOBAL PRODUCT OWNER

Business-minded and innovation-driven **Global Product Owner** with an **EMBA and M.Sc. in Finance**, offering a proven track record across leading Nordic enterprises (Ingka Group, Boozt). Currently leading **2 cross-functional agile teams** (5—10 members each) delivering enterprise B2B commercial platforms. Pioneer in leveraging **AI agents, automated workflows, and Power BI analytics** for data-driven decisions and optimized delivery. Brings deep domain grounding in the **renewable energy & flexibility sector** (clean-tech startup experience + active home micro-storage prosumer) paired with foundational expertise in **financial markets and derivatives**.

Experience

- 05/2021 — Present • Ingka Centres (Ingka Group / IKEA) • Malmö, Sweden
Global Product Owner — B2B Commercial Systems
 - **Agile Leadership:** Direct product vision and roadmap execution across **2 agile teams (5—10 members each)**, scaling core B2B commercial systems and operational platforms globally.
 - **AI & Workflow Automation:** Champion the adoption of **AI agents and automated workflows** to automate reporting analytics, sprint tracking, and operational handoffs, substantially boosting delivery velocity.
 - **Process Optimization:** Redesign end-to-end commercial property workflows, translating complex business bottlenecks into streamlined, automated digital features with high user adoption.
 - **Commercial Bridge:** Act as the vital link between executive commercial stakeholders and technical engineering pods, ensuring roadmap priorities are directly tied to business viability.
- 01/2018 — 05/2021 • Boozt Fashion AB • Malmö, Sweden
Business Process Supervisor / Operation Coordinator
 - **Business Process Improvement:** Led workflow re-engineering across order flows, warehouse handling, and system integrations to maximize operational velocity and SLA compliance.
 - **BI & Reporting Analytics:** Deployed **Power BI dashboards** and automated reporting suites for leadership to track real-time operational efficiency, partner onboarding, and logistics throughput.
 - **IT & System Integration:** Partnered with IT to define functional requirements, architect system integrations, and conduct UAT for **70+ partner brand onboardings**.
- 10/2016 — 03/2017 • InnoVentum AB (Renewable Energy Solutions) • Malmö, Sweden
Project Consultant — Clean Energy & EV Infrastructure
 - Conducted market research and economic feasibility analysis on EV charging stations and decentralized renewable microgrids.
 - Formulated go-to-market strategies, business models, and financing structures to drive clean-tech expansion and partnerships.
- 2008 — 2016 • State Street Corporation (China) | Roullier Group (France)
Credit Analyst & Financial Business Analyst
 - **State Street Corporation (2008—2010):** Analyzed bank treasury workflows; conducted functional & UAT testing on **FX, Derivatives trading**, and treasury management instruments.
 - **Roullier Group (France, 2015—2016):** Evaluated supplier credit risk and financial exposure across subsidiaries in **30+ countries**; refined internal credit scoring models.
